

WORKING TOGETHER

To keep each other and our little paradise safe

Pacific Resort
HOTEL GROUP

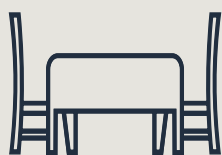

How **WE** are working to keep you safe

We meticulously maintain the highest standards of cleanliness and hygiene; we have carried out a **deep clean** throughout all resorts, have **increased the frequency of cleaning our public areas** and continue to **use hospital grade disinfectants**

Antibacterial hand sanitisers are available in all public areas eg reception, restaurants

Our restaurants offer **hand sanitiser** on arrival and our seating is set up to fit global **physical distancing guidelines**

Our stand-up paddleboarding & kayak equipment is **sanitised after each use and between guests**

We encourage you to **“Press Pause” on travel** if you feel unwell prior to your departure

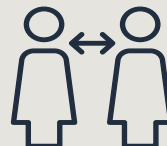

Our customary greeting in the Cooks is a kiss on the cheek, however at this time we are asking our guests to **try a smile, a wave or a nod** instead.

Frequently wash hands with soap & water and **make use of the antibacterial hand sanitisers** provided in all public areas

Bring along your own snorkel and mask from home

Practice physical distancing in shared spaces

Call our Guest Services team if you become unwell while staying with us

Visit us at www.pacificresort.com to access our Frequently Asked Questions and for information on our response and policies we have in place with regard to Covid-19.
